i dont understand whats so big about the friends list honestly. ive seen panic over being unfriended here on the forums but
y'all can still be friends without the friends list
the friends list doesnt really do anything lol

I just use it for people I role play with so I can see when they're on. It doesn't really do anything else.

Yeah, I just favorite my friends. All the other people are just on there because I friended them so I would know when they were on.

Well I am not nice so I only favorite, forum family, role play friends, and important friends. And the friends list is important.

Sure is Jacquelyn, so I can unfriend everyone.

I only have as many friends as I do (845) for the SA game, because it's useful to have a lot of people to invite to quests. Most of the people who I'm actually friends with on the forums aren't even on my list. I mean, yeah, it's nice to see when they're online, but it really doesn't do anything that useful XD

people come into our lives for a reason
bringing something we must learn
we are led to those who help us most to grow
& we help them in return
i don't know if i believe that's true
but i know i'm who i am today
because i knew you
